

Technical Data Sheet

AW-600 Hydro-Cure

PRODUCT DESCRIPTION

AW – 60 HC is a high solids water based paraffin wax emulsion designed to be a cost effective surface modifier and concrete curing membrane with a special emulsifier package to ensure storage stability. A special additive has been added to leave a bright white layer on the concrete surface when dry.

SPECIFICATIONS

Appearance: Milky white to off white

Solids range: 58% - 61%

PH: 8.0 - 9.5

Charge: Anionic

Brookfield Viscosity (cps): 35 - 200

Shear Stability: 4 min.

Storage Temperature: 40° - 95° F

Storage Life: 6 Months

Specific Gravity: 0.95 - 0.99

PRODUCT SHOULD BE HANDLED WITH AIR PRESSURE ONLY.

USAGE

AW-60 HYDRO CURE is formulated to retain or slow the rate of moisture loss in freshly poured concrete. It also accelerates strength gain, improves durability and quality appearance. Increase tensile strength for greater resistance to cracking.

TECHNICAL SERVICES

For additional information, please contact A & W Products, Inc. at (706) 769-9012. Our experienced technical service staff can answer your application questions and recommend the best product for your needs. We can even custom formulate to suit your unique applications at your request.

REMARKS

It is recommended that AW-60 HC be checked for compatibility with any products that are to be admixed.
